

Muhammad Zubair — Premium International Customer Success & Support Portfolio

Create a premium, modern, highly professional personal portfolio website for **Muhammad Zubair**, positioned for international clients, startups, SaaS companies, fintech companies, marketplaces, e-commerce businesses, and remote-first organizations.

The website should immediately communicate:

“This is an experienced customer-facing professional who can manage customers, protect retention, resolve complex problems, improve operations, and lead teams.”

The portfolio should feel like a **high-end professional consulting/service portfolio**, not a generic resume website.

1. PRIMARY PROFESSIONAL POSITIONING

Position Muhammad Zubair as:

Customer Success Manager | Customer Support Specialist | Account Manager | Customer Experience Professional | Team Lead | Fraud & Dispute Resolution Specialist

Core professional positioning:

Customer Success and Support professional with 4+ years of experience across fintech and gig-economy platforms, specializing in customer retention, account management, complex financial support, chargeback and dispute resolution, fraud investigations, stakeholder management, and team leadership.

Emphasize that Muhammad has worked with internationally recognized platforms and has experience supporting customers, business partners, and operational teams in high-volume environments.

Do NOT portray him as someone who only answers customer queries.

Instead, position him as someone who can:

- Build and maintain customer relationships
- Protect customer and partner retention
- Manage accounts throughout the customer lifecycle
- Resolve complex customer problems
- Handle escalations professionally
- Investigate financial disputes and fraud cases
- Manage chargebacks and card-network disputes
- Improve customer experience
- Monitor KPIs and SLAs

- Coach and lead support teams
 - Collaborate with cross-functional departments
 - Work independently in remote environments
 - Communicate confidently with international clients
-

2. DESIGN DIRECTION

Create a sophisticated Western-style portfolio inspired by modern SaaS, consulting, fintech, and executive professional websites.

The design should be:

- Minimal
- Premium
- Clean
- Spacious
- Modern
- Corporate but approachable
- Highly readable
- Mobile responsive
- Fast-loading
- Professional enough for US, UK, EU, Canadian, Australian, and Middle Eastern clients

Avoid:

- Excessive animations
- Loud gradients
- Cartoon graphics
- Generic stock photos
- Overly colorful sections
- Cheap-looking templates
- Excessive icons
- Long blocks of text
- Generic motivational quotes
- Fake testimonials
- Fake client logos
- Fake statistics
- Unverified claims

Use:

- White or very light background
- Dark charcoal/navy typography
- One restrained accent color
- Subtle borders
- Premium cards
- Rounded but professional UI elements
- Strong typography hierarchy
- Generous whitespace

- Subtle hover animations
- Smooth scrolling
- Elegant transitions

The visual feeling should be:

“Senior professional + SaaS + fintech + international consulting.”

3. HERO SECTION

Create a powerful above-the-fold hero section.

Headline:

Turning Customer Experience Into Retention, Trust & Business Growth.

Supporting statement:

Customer Success, Support, Account Management and Operations professional with 4+ years of experience across fintech and gig-economy platforms. I help businesses retain customers, resolve complex problems, strengthen relationships, and build high-performing support operations.

Add a professional availability badge:

Available for Remote Opportunities

Primary CTA:

Let's Work Together

Secondary CTA:

View My Experience

Include a professional portrait/photo area if a suitable photo is provided. Do not generate a fake professional photograph.

Add credibility indicators:

4+ Years Experience

110+ Partner Accounts Managed

95%+ CSAT

15–20 Team Members Led

40–50% CSAT/NPS Improvement

Present these elegantly and avoid making them look like exaggerated marketing claims.

4. PROFESSIONAL INTRODUCTION

Create a section titled:

More Than Support. I Build Customer Relationships That Last.

Use this concept:

Great customer experience is not simply about answering tickets. It is about understanding the customer, identifying the real problem, taking ownership, and creating a resolution that builds trust.

My experience spans Customer Success, Customer Support, Account Management, fintech operations, Fraud & Dispute Resolution, and Team Leadership. I have supported customers in regulated fintech environments, managed business relationships with restaurant partners, handled complex escalations, and led customer service teams.

Whether the goal is reducing churn, improving CSAT, resolving a difficult customer case, protecting a financial account, or improving team performance, I bring a structured, customer-first approach backed by real operational experience.

Keep this section concise, premium, and visually engaging.

5. MY CUSTOMER SERVICE PHILOSOPHY — THE HEART MODEL

Create a dedicated section titled:

The HEART Behind Every Customer Interaction

Introduce HEART as the customer service framework used during customer interactions.

Explain that Muhammad approaches customer conversations through the following five principles:

H — HEAR

Listen first.

Understand what the customer is actually saying, identify the underlying concern, and avoid rushing toward a solution before understanding the complete situation.

E — EMPATHIZE

Understand the customer's perspective.

Acknowledge the customer's frustration, concern, urgency, or expectations and communicate with genuine understanding.

A — APOLOGIZE

Take ownership where appropriate.

When the customer has experienced inconvenience, frustration, or a service issue, acknowledge the experience professionally and sincerely rather than becoming defensive.

R — RESOLVE

Move the conversation toward a clear solution.

Investigate the issue, identify the appropriate resolution, communicate expectations clearly, and take ownership of the next steps.

T — THANK

Close with appreciation.

Thank the customer for their patience, trust, and time, and leave the interaction on a positive and respectful note.

Create a visual flow:

HEAR → EMPATHIZE → APOLOGIZE → RESOLVE → THANK

Add a supporting statement:

The goal is not simply to close the conversation. The goal is to make the customer feel heard, respected, and confident in the resolution.

Make this section visually distinctive and memorable.

6. CUSTOMER SUCCESS FRAMEWORK

Create another section titled:

How I Approach Customer Success

Do not present this as a claim that Muhammad followed one specific proprietary/branded methodology. Instead, present it as a **practical Customer Success framework developed through professional experience**.

Use the following framework:

01 — UNDERSTAND

Understand the customer's business, objectives, challenges, expectations, and definition of success.

02 — ONBOARD

Create a smooth onboarding experience and make sure customers understand the product, platform, processes, and available resources.

03 — MEASURE

Monitor customer health using appropriate indicators such as engagement, satisfaction, account activity, retention signals, feedback, and performance metrics.

04 — ENGAGE

Maintain proactive communication rather than waiting for customers to raise problems.

05 — CREATE VALUE

Identify opportunities where the product, service, or platform can help the customer achieve better outcomes.

06 — RETAIN

Identify early warning signs, address concerns, strengthen relationships, and reduce avoidable churn.

07 — GROW

Where appropriate, identify expansion, upselling, additional services, or platform features that genuinely align with the customer's needs.

08 — ADVOCATE

Build enough trust and satisfaction that customers become long-term partners and positive advocates for the business.

Visual flow:

Understand → Onboard → Measure → Engage → Create Value → Retain → Grow → Advocate

Add:

Customer Success is proactive. Support solves today's problem; Customer Success works to prevent tomorrow's problem.

This distinction should be prominent because it positions Muhammad above a conventional customer support profile.

7. CUSTOMER SUCCESS TOOLS & PRACTICES

Create a section titled:

Customer Success Practices I Understand

Include:

- Customer Lifecycle Management
- Customer Health Monitoring
- Account Health Reviews
- Customer Onboarding
- Proactive Customer Engagement
- Retention & Churn Reduction
- Business Reviews / QBR-style Reviews
- Customer Feedback Analysis
- Stakeholder Management
- Escalation Management
- Customer Satisfaction Monitoring
- NPS & CSAT
- KPI Tracking
- Account Growth Opportunities
- Upselling & Expansion Opportunities
- Cross-functional Collaboration
- Customer Advocacy

Use language that reflects practical professional experience rather than claiming mastery of every methodology.

8. CAREER JOURNEY

Create an elegant vertical or horizontal career timeline.

Customer Success Manager — Uber / Uber Eats

January 2021 – November 2023

Focus:

- Managed 110+ restaurant partner accounts
- Owned onboarding, retention, renewal and account growth
- Conducted business reviews
- Identified at-risk accounts
- Supported churn reduction
- Promoted relevant platform features and promotional tools
- Managed escalations
- Maintained 95%+ CSAT

- Worked directly with restaurant owners and managers
- Used CRM workflows

Position this stage as:

Customer Success → Account Management → Retention → Growth

Customer Support Specialist — Revolut

November 2023 – April 2025

Focus:

- Real-time customer support
- High-volume chat support
- Chargeback investigations
- Visa and Mastercard dispute processes
- Transaction evidence gathering
- Referral program support
- Account Takeover cases
- Customer identity verification
- Account security
- Complex financial queries
- CRM documentation
- SLA and quality compliance
- Cross-functional escalations

Position this stage as:

Customer Support → Fintech → Fraud Prevention → Dispute Resolution

Customer Support Team Lead / Line Manager — Mindbridge, supporting Revolut

May 2025 – July 2026

Focus:

- Led 15–20 Customer Service Specialists
- Managed omnichannel support
- Coached team members
- Conducted one-to-one sessions
- Monitored KPIs
- Managed escalations
- Improved team performance
- Maintained SLA and quality standards
- Worked with senior stakeholders

- Supported operational improvements
- Received Top Line Performing Manager recognition

Position this stage as:

Individual Contributor → Leadership → Performance Management → Operational Excellence

9. FEATURED EXPERIENCE — CUSTOMER SUCCESS

Create a visually impressive case-study-style section:

Customer Success & Account Management

Headline:

Helping Partners Stay, Grow & Succeed

Explain that while working with Uber Eats, Muhammad managed a portfolio of **110+ restaurant partner accounts** and owned relationships across the customer lifecycle.

Create three cards:

RETENTION

Proactively monitored account health, identified at-risk restaurant partners, addressed concerns, and supported retention and churn-reduction efforts.

GROWTH

Identified opportunities to expand existing accounts through relevant promotional tools, platform features, and consultative account management.

RELATIONSHIPS

Built trusted relationships with restaurant owners and managers through regular communication, business reviews, performance discussions, and proactive problem-solving.

Highlight:

110+ Restaurant Partner Accounts

95%+ CSAT

10. FEATURED EXPERIENCE — REVOLUT

Create a premium fintech-focused section.

Title:

Fintech Support & Complex Case Resolution

Subtitle:

When the problem involves money, security, or trust, accuracy matters.

Create four capability cards:

CHARGEBACKS & DISPUTES

Investigated and resolved chargeback disputes end-to-end, including transaction review, evidence gathering, case documentation, and escalation through Visa and Mastercard dispute processes.

FRAUD & ACCOUNT SECURITY

Managed urgent Account Takeover cases, verified customer identity, secured compromised accounts, and supported restoration of account access.

CUSTOMER SUPPORT

Delivered real-time support for high-volume financial queries through chat while working within strict SLA and quality requirements.

REFERRALS

Managed referral-related inquiries, validated reward eligibility, investigated discrepancies, and communicated resolutions clearly.

Add visual workflow:

Customer Issue → Investigation → Evidence → Resolution → Documentation → Follow-up

Also include:

HEART Framework

Accuracy + Empathy + Ownership

11. TEAM LEADERSHIP SECTION

Title:

From Managing Cases to Managing People

Explain:

As a Customer Support Team Lead / Line Manager, I managed a team of 15–20 Customer Service Specialists supporting Revolut. My role combined people leadership, performance management, coaching, escalation handling, KPI monitoring, quality management, and operational improvement.

Create capability cards:

- Performance Coaching
- KPI Management
- Quality Assurance
- SLA Management
- Escalation Management
- Team Development
- One-to-One Coaching
- Conflict Resolution
- Process Improvement
- Stakeholder Management

Highlight:

15–20 Specialists Led

40–50% CSAT/NPS Improvement

Top Line Performing Manager Certificate

Outstanding Performance Award

12. WHAT I CAN DO FOR YOUR BUSINESS

Create a section specifically designed for potential Western clients.

Title:

How I Can Help Your Team

Create six professional service cards.

CUSTOMER SUCCESS

Customer onboarding, relationship management, retention, account health monitoring, business reviews, churn reduction and customer growth.

CUSTOMER SUPPORT

Omnichannel customer support, complex issue resolution, escalation management, customer communication and SLA-driven operations.

ACCOUNT MANAGEMENT

Managing customer portfolios, stakeholder relationships, account reviews, renewal support, upselling opportunities and account health.

FRAUD & DISPUTE RESOLUTION

Chargeback investigation, dispute management, fraud-related case handling, account security and financial-risk support.

SUPPORT TEAM LEADERSHIP

Team coaching, KPI management, quality monitoring, performance improvement, escalations and team development.

REMOTE OPERATIONS

CRM management, digital workflows, documentation, cross-functional collaboration, reporting and independent remote execution.

13. MY APPROACH TO CUSTOMER EXPERIENCE

Create a section titled:

My Approach

Use two complementary frameworks:

CUSTOMER SUPPORT

HEAR → EMPATHIZE → APOLOGIZE → RESOLVE → THANK

CUSTOMER SUCCESS

UNDERSTAND → ONBOARD → MEASURE → ENGAGE → CREATE VALUE → RETAIN → GROW → ADVOCATE

Explain:

Support focuses on resolving the customer's immediate need. Customer Success focuses on helping customers achieve long-term value. My experience allows me to understand both sides of the customer journey.

This should be one of the strongest sections of the website.

14. RESULTS / IMPACT

Create a bold metrics section:

4+ Years

Customer Success & Support Experience

110+

Restaurant Partner Accounts Managed

95%+

CSAT Maintained

15-20

Support Specialists Led

40-50%

CSAT/NPS Improvement

C2

English Proficiency Certification

15. REMOTE WORK READINESS

Create a highly professional section titled:

Fully Equipped for Remote Work

This section should reassure international employers that Muhammad is not only interested in remote work but is **operationally prepared for it**.

Headline:

Professional Remote Setup. Reliable Connectivity. Business Continuity.

Write:

I maintain a dedicated remote-work setup designed to support customer-facing roles, online meetings, CRM workflows, documentation, and communication across international teams.

Create premium equipment cards:

LAPTOPS

Primary / Available Systems

- Intel Core i7 laptop
- Intel Core i6 laptop
- 8 GB RAM system
- 12 GB RAM system

Present the exact specifications professionally without making unsupported claims about performance.

INTERNET

20 Mbps Internet Connection

Reliable internet connectivity suitable for customer support, CRM platforms, video meetings, cloud applications, and remote collaboration.

Add:

Internet speed can be upgraded when a role requires higher bandwidth.

POWER BACKUP

Battery Backup

Dedicated battery backup to help maintain work continuity during power interruptions.

REMOTE WORK CAPABILITY

Highlight:

- Customer support systems
- CRM platforms
- Video conferencing
- Slack
- Jira
- Confluence
- Google Workspace
- Microsoft Office
- Cloud-based workflows
- Multiple browser/application workflows
- Cross-time-zone collaboration

Add a professional statement:

I understand that remote work requires reliability, communication, self-management, and business continuity—not simply a laptop and an internet connection.

Do not make the equipment section look like a technical hardware advertisement. Keep it focused on **reliability and work readiness**.

16. REMOTE WORK SECTION

Title:

Built for Remote, International Teams

Position Muhammad as someone comfortable working with distributed teams and international customers.

Use:

Experienced in digital, tool-based workflows and cross-functional collaboration across Slack, Jira, Confluence, Zoom, CRM platforms, Google Workspace and Microsoft Office. Comfortable managing priorities independently, working against deadlines and KPIs, documenting work accurately, and collaborating across time zones.

Highlight:

- Self-managed
- Deadline-driven
- Digitally fluent
- Strong written communication
- C2 English certified
- International customer experience
- Cross-functional collaboration
- Remote-ready workflow
- Dedicated work setup
- Power backup
- Upgradeable internet connectivity

17. SKILLS SECTION

Create a polished skills section divided into categories.

Customer Success

- Customer Success Management
- Customer Retention

- Account Management
- Client Relationship Management
- Customer Onboarding
- Business Reviews
- Churn Reduction
- Upselling
- Account Growth
- Stakeholder Management
- Customer Health Monitoring
- Proactive Engagement

Customer Support

- Omnichannel Support
- Chat Support
- Email Support
- Phone Support
- Escalation Management
- SLA Management
- Customer Experience
- Case Management
- Complaint Resolution
- HEART Customer Service Framework

Fintech & Risk

- Chargeback Management
- Fraud Investigation
- Dispute Resolution
- Visa Disputes
- Mastercard Disputes
- Account Takeover Investigation
- Account Security
- Transaction Investigation

Leadership

- Team Leadership
- Performance Coaching
- KPI Management
- Quality Management
- Team Development
- Performance Reviews
- Conflict Resolution
- Process Improvement
- Stakeholder Management

Tools

- Salesforce
- Zendesk

- Jira
 - Confluence
 - Slack
 - Zoom
 - Google Workspace
 - Microsoft Office
 - Trello
 - Canva
 - Chatbot & AI Productivity Tools
-

18. SELECTED CASE STUDIES

Create three premium case-study cards.

CASE STUDY 01

Improving Customer Support Team Performance

Challenge:

High-volume support environment requiring consistent customer experience, SLA adherence and team performance.

My Role:

Customer Support Team Lead / Line Manager.

Actions:

Coaching, one-to-one development, KPI monitoring, performance reviews, escalation management and process improvement.

Result:

40–50% improvement in CSAT and NPS.

CASE STUDY 02

Managing 110+ Restaurant Partner Accounts

Challenge:

Maintaining relationships and retention across a large restaurant partner portfolio.

My Role:

Customer Success Manager.

Actions:

Onboarding, account health monitoring, business reviews, proactive outreach, escalation management and growth opportunities.

Result:

Managed 110+ accounts while maintaining CSAT above 95%.

CASE STUDY 03

Resolving Complex Fintech Disputes

Challenge:

Customers facing disputed transactions, fraud concerns, account security issues and referral discrepancies.

My Role:

Customer Support Specialist.

Actions:

Investigation, identity verification, evidence gathering, Visa/Mastercard dispute handling, documentation and customer communication.

Customer Approach:

HEAR → EMPATHIZE → APOLOGIZE → RESOLVE → THANK

Result:

Accurate and compliant resolution of high-stakes financial cases while maintaining a strong customer experience.

19. WHY CLIENTS SHOULD WORK WITH ME

Create:

Why Work With Me?

CUSTOMER-FIRST

I understand that customer experience directly influences retention, loyalty and brand reputation.

COMMERCIALy AWARE

My Customer Success experience has taught me to think beyond individual tickets and understand account health, retention and growth.

COMFORTABLE WITH COMPLEXITY

I have worked with financial disputes, fraud-related cases, account security and high-stakes customer issues.

DATA & KPI DRIVEN

I am comfortable working with CSAT, NPS, SLA, performance and operational metrics.

LEADERSHIP EXPERIENCE

I have progressed from frontline customer support to leading a team of 15–20 specialists.

INTERNATIONAL COMMUNICATION

C2-level English certification and experience supporting international customers and business partners.

REMOTE-READY

I have a dedicated remote setup, internet connectivity, battery backup and the equipment required to work effectively with international teams.

20. PROFESSIONAL RECOGNITION

Create a refined awards section.

Top Line Performing Manager Certificate

Revolut / Mindbridge — 2026

Outstanding Performance Award

Mindbridge — 2025

Excellence Certificate

Uber UK Operations — 2021–2023

C2-Level English Proficiency Certification

Where actual certificate images are available, allow them to be displayed in elegant expandable cards.

Never create fake certificates.

21. ABOUT ME

Create a concise personal-professional section.

Headline:

A Customer Professional Who Understands Both People & Process

Write approximately 120–160 words explaining that Muhammad's career developed across:

Customer Success → Customer Support → Fintech Operations → Fraud & Dispute Resolution → Team Leadership

Explain that his experience allows him to understand the complete customer journey—from onboarding and relationship management to complex support, retention, escalation management, and operational leadership.

Keep the tone:

- Confident
- Warm
- Professional
- Human
- International
- Mature

Do not include unnecessary personal information.

22. CONTACT / CTA

End with:

Have a Customer Experience Challenge? Let's Talk.

Supporting copy:

Whether you need someone to manage customer relationships, strengthen retention, handle complex support operations, manage accounts, resolve disputes, or lead a support team, I'd be happy to discuss how I can contribute.

Primary button:

Start a Conversation

Secondary button:

Download Resume

Include:

Email: **mhumd.zubair@gmail.com**

LinkedIn: [linkedin.com/in/muhammadzubair716925265](https://www.linkedin.com/in/muhammadzubair716925265)

Location:

Lahore, Pakistan | Available for International Remote Opportunities

Do not expose a full residential address.

23. NAVIGATION

Use:

Home | About | Experience | Expertise | Frameworks | Case Studies | Remote Setup | Contact

CTA:

Let's Connect

Use a professional mobile navigation menu.

24. FOOTER

Muhammad Zubair

Customer Success • Customer Support • Account Management • Fraud & Dispute Resolution • Team Leadership

Helping businesses create better customer experiences, stronger relationships, and more effective support operations.

Include LinkedIn and email icons.

Copyright:

© 2026 Muhammad Zubair. All rights reserved.

25. COPYWRITING STYLE

Use Western professional business English.

Tone:

- Clear

- Confident
- Direct
- Evidence-based
- Customer-focused
- Business-oriented
- Human
- Mature

Avoid generic phrases such as:

- "I am a hardworking person."
- "I can do everything."
- "I am the best candidate."
- "I guarantee success."
- "I am passionate about everything."
- "I am looking for a job."

Instead use language such as:

I turn complex customer problems into structured resolutions.

I combine customer empathy with operational discipline.

I understand both the customer's immediate problem and the business impact behind it.

I help businesses retain customers by combining proactive relationship management with measurable customer experience practices.

I bring frontline customer experience and people-leadership experience to the same role.

26. CREDIBILITY RULES

The portfolio must remain completely truthful.

Use only information supported by Muhammad Zubair's CV, LinkedIn profile, and information provided for this portfolio.

Do not invent:

- Clients
- Revenue figures
- Testimonials
- Job titles
- Certifications
- Awards
- Companies
- Performance statistics

- Responsibilities
- Technologies
- Case studies
- Client logos
- Endorsements

Do not imply that Muhammad used a specific branded Customer Success methodology unless explicitly verified.

The HEART framework may be presented as the customer interaction framework Muhammad follows.

The Customer Success framework should be presented as a **practical approach to Customer Success based on his professional experience**, not as a claim of certification in a particular methodology.

27. SEO

Optimize naturally for:

- Customer Success Manager
- Customer Success Specialist
- Customer Support Specialist
- Customer Support Team Lead
- Account Manager
- Customer Experience Professional
- Fintech Customer Support
- Chargeback Specialist
- Fraud & Dispute Analyst
- Remote Customer Success Manager
- Remote Customer Support
- Account Management
- Customer Retention
- Customer Experience Operations
- Customer Success Operations
- Remote Customer Experience

Suggested title:

Muhammad Zubair | Customer Success Manager & Customer Support Team Lead

Suggested meta description:

Muhammad Zubair is a Customer Success and Support professional with 4+ years of experience across fintech and gig-economy platforms, specializing in customer retention, account management, dispute resolution, fraud investigations, customer experience and team leadership.

28. FINAL DESIGN OBJECTIVE

The finished website should make a Western client think:

"He has actually handled customers, business accounts, financial disputes and teams. He understands operations, communicates professionally, follows a structured customer-first approach, and has measurable results. He also has the setup and discipline required to work remotely. I would be comfortable speaking with him about working with our customers."

The website should NOT feel like:

- A basic online CV
- A student portfolio
- A generic freelancer template
- A customer-service job application
- An overly flashy personal website
- A hardware specification page

It should feel like:

A premium professional portfolio for an experienced Customer Success, Customer Experience, Support Operations and Account Management professional who is ready to work with international businesses.

The core brand message should be:

**CUSTOMER EXPERIENCE. RETENTION.
RESOLUTION. LEADERSHIP.**

And the supporting philosophy should be:

**HEAR THE CUSTOMER. UNDERSTAND THE
BUSINESS. CREATE LASTING VALUE.**
